Summary of Legislation: The bill adjusts census numbers in statutes. The bill changes population parameters in various statutes to reflect the population count determined under the 2010 decennial census. The bill substitutes names for population parameters in the following types of statutes: (1) Statutes legalizing certain actions of particular political subdivisions. (2) Statutes that have been challenged unsuccessfully as special or local legislation. (3) Statutes reserving certain powers to certain political subdivisions at the time of recodification of laws relating to political subdivisions. The bill resolves a conflict in the statute that defines the classes of cities to provide that a city becomes a first class city when the city attains a population of 600,000. (The introduced version of this bill was prepared by the Census Data Advisory Committee.)
